GREETINGS! We are pleased to send you this 1948 Iris list, describing very briefly the fine newer varieties, and giving the color description of the good older varieties we have to offer you this season. We take this means of personally thanking everyone who ordered Iris from us last year. And at the same time we wish to say that we will appreciate a part of your Iris business again this year. To those who have never bought rhizomes from us, let us say, give us a trial order and see for yourself the fine roots we send you, as well as the liberal way in which we do business. Just this one caution! Our stock of Iris is limited and only those who order early can hope to be supplied with your choice.

OUR LOCATION. We are located in almost the exact geographical center of the nation. Our seasons are extreme, both hot and cold. Much of our winter temperature is below zero—dropped to 20 below this winter. If an Iris can survive thru these extremes, then you may know it is really a hardy variety. We do not give winter protection to any of our plants. Our soil is the very best black sandy loam, and produces top size and quality rhizomes. Please remember this fact, not all varieties grow large sized roots.

GUARANTEE: Our gardens are state inspected. Every rhizome shipped will be healthy, labeled true to name, and in good growing condition when shipped. No warranty can be given for cultural success, however, if you are not well pleased with the stock when it arrives, you may return it and your money will be promptly refunded. No questions asked. We must please you.

SHIPMENTS: This year we will dig and ship from the 15th of July until the 15th of October. We reserve the right to accept or refuse any part of an order, depending upon the quantity and quality of the stock at the time of shipping. All orders will be filled in the order they are received.

TERMS: Cash with order. No order for less than \$3.00. Orders post-paid in the U.S.A. We believe that the purchaser of larger amounts should be entitled to quantity discounts and so we make the following:

Special Offer!

Add 10% in Iris on orders of \$5.00 to \$10.00
Add 20% in Iris on orders of 10.00 to 15.00
Add 25% in Iris on orders of 15.00 to 20.00
Add 30% in Iris on orders of 20.00 to 25.00
Add 40% in Iris on orders of 25.00 to 35.00
Add 50% in Iris on orders of 35.00 to 60.00
Add 75% in Iris on orders of	60.00 and over

Since our stock in many varieties is limited—please list several second choice Iris. Otherwise we will have to guess what to give you if we are 'sold out' of your first choice on this liberal discount offer.

SUBSTITUTIONS: We will make no substitutions unless you indicate you will accept them. Please list several second choices on your order. We will give extra value in substitutions.
